Features and benefits

Advanced filtration

Integral 0.2 micron NSF certified Zip MicroPurity filtration system offers 25 times better filtration than a standard water filter jug, eliminating bad taste and odour of chlorine, heavy metals and impurities as tiny as one five-thousandth of a millimetre, but leaving beneficial fluoride.

Power-Pulse™ technology

Reduces energy consumption by allowing the system to regulate its power during periods of high and low usage.

Unique safety features

The Zip HydroTap is designed with safety front of mind, with boiling isolation, cool touch tap and safety lock features.

Touchscreen diagnostics

The compact under-counter unit includes a simple PIN code protected touchscreen that puts the user in total control of the system, including temperature, dispensing time, safety features, energy-saving settings and continuous auto-diagnostics.
