

ENERGY SAVER F6

- Improves heat transfer efficiency
- Can contribute to lower energy usage
- Is left in the system permanently
- Compatible with all metals and materials
- Helps maintain system efficiency

Product Uses

Using Fernox Central Heating Energy Saver F6 can result in a gas consumption saving of 0.8% or £12.13 on unscaled boilers and 1.2% or £18.20 on scaled boilers. Fernox Energy Saver F6 is supplied in 500ml bottles and is compatible with all other Fernox products.

Fernox Energy Saver F6 has been independently tested by 2 organisations.

Application and Dosage

One bottle will treat a 100 litre system (up to 10 single radiators). For open vented systems, add the product via the header tank. For sealed systems, add via a filling loop or the radiator using a Fernox Injector.

Packaging, Handling and Storage

Fernox Energy Saver F6 is not classified as hazardous but, as with all chemicals, care should be taken. Do not mix with any other chemicals other than Fernox products stated. Keep out of reach of children. In case of contact with eyes or skin, rinse immediately with plenty of water. Manufactured to *BS EN ISO 9001 and 14001*.
