

# UTC 99

Vented point of use hot water

# UTC 99

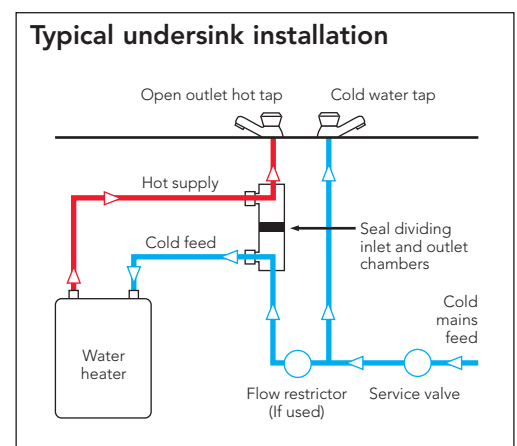

UTC 99 water heaters are ideal for the kinds of light duty use required in many kitchens.

Ideal for instances where there is no existing hot water store, they are built to our stringent quality standards using only the best possible components and are designed to offer efficient, reliable service over the long term.

With a keen eye on practicality, we've given the UTC 99 a strong metal case that can easily take accidental knocks and bashes in its stride. It is designed to function in two ways – as an open outlet unit to supply vented taps; or as a cistern-fed unit to supply up to two ordinary taps. Every UTC 99 water heater is backed by a two year guarantee with on-site service support.

- 15 litre capacity.
- Wall-mounting or floor-standing.
- 1.5kW or 3kW rating.
- Element 'On' indicator.
- Thermostat adjustable from 10°C to 70°C.
- Lockable in hot or mid-range position.
- Over temperature cut-out.
- Plumbing and electrical connections at top of unit.

# Full specifications, dimensions and ordering

## Specification

### Capacity

15 litres.

### Rating

1.5kW, 3kW @ 240V, (1.4kW, 2.8kW @ 230V).

### Outer casing

White plastic top moulding with corrosion proof steel base and centre section, finished in white stove enamel.

### Thermal insulation

CFC/HCFC free (ODP zero) flame-retardant expanded polystyrene.

### Water container

Heavy gauge copper, tested to 3 bar (44 psi).

### Heat unit

Replaceable embedded rod-type element sheathed in corrosion resistant alloy.

### Thermostat

Rod-type thermostat adjustable from 10°C to 70°C.

### Safety features

Re-settable over temperature cut-out.

### Approvals

Kiwa approved to UK Water Supply Regulations. CE marked.

Manufactured in the UK in a BS EN ISO 9001:2000 registered factory.

## Installation

### Fixing

Bracket supplied for wall fixing. Alternatively, UTC 99 can be floor-standing.

### Plumbing

15mm copper pipe connections for cold water inlet and hot water outlet at top.

As a cistern-fed unit, it can serve up to two ordinary taps, provided a vent pipe is installed straight back to the header tank and the amount of stored water is sufficient for the application.

When used as an open outlet unit, UTC 99 can serve one basin or sink using Streamline vented tap pack options J, K, M, P, Q, R or S.

**NOTE:** When installed as an open outlet water heater only, Heatrae Sadia vented taps must be used.

For tap specifications please refer to Heatrae Sadia's Streamline brochure.

### Electrical

Must be permanently connected to the electrical supply through a double-pole linked isolating switch with a 13A minimum rating.

Must conform to current IEE wiring regulations.

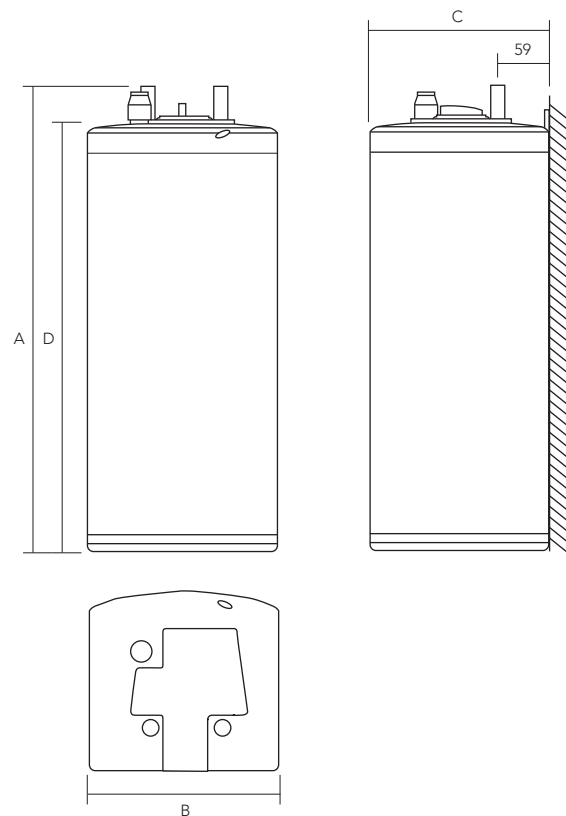

## Guarantee

UTC 99 carries a full two year transferable on-site service support guarantee against faulty manufacture or materials provided that:

- It has been correctly installed as per the instructions contained in the instruction manual and all relevant Codes of Practice and Regulations in force at the time of installation.
- It has been installed in the UK.
- It has not been modified in any way, other than by Heatrae Sadia Heating.
- The damage is not due to scaling or frost.
- It has only been used for the storage of potable water.
- It has not been tampered with or been subjected to misuse or neglect.
- Within 60 days of installation the user completes and returns the certificate supplied along with the proof of purchase to register the product.

Evidence of purchase and date of supply must be submitted. The units are not guaranteed against damage due to frost. The guarantee is transferable. This guarantee does not affect your statutory rights.

## Dimensions

Model	A	B	C	D	Weight	
	(mm)	(mm)	(mm)	(mm)	empty (kg)	full (kg)
UTC 99 1.5kW	656	267	252	613	8.4	23.4
UTC 99 3kW	656	267	252	613	8.4	23.4
