

SANINEUTRAL

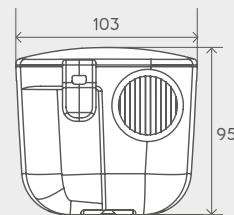

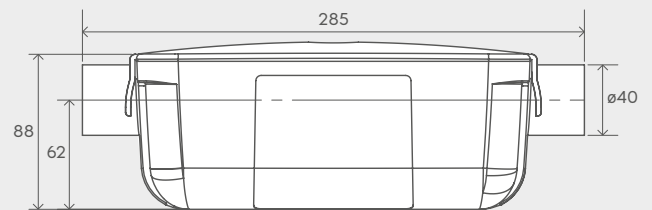

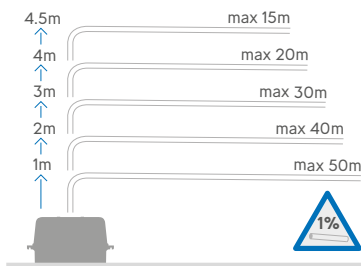

Product Ref: 1082/4

The Sanineutral will neutralise the acidic condensate from a boiler before the waste is drained away, hence protecting pipework and the environment from damage. It works without a pump but can be placed in the pipework before a Sanicondens® Pro or Eco.

Why choose this product?

- Designed to neutralise the acidic concentrate from a boiler
- Suitable for condensing boilers up to 50kW
- Replaceable neutralising granule packs
- Easy maintenance and fits on the wall or floor
- Top or side entry options

Vertical/horizontal performance

Discharge Pipework
40mm

Working Waste Water Temp
60°C

Tank Volume
1.2kg

Product Weight
1.7kg
